

PROJECT MANAGEMENT WITH ORACLE PRIMAVERA

Overview

Project Management with Oracle® Primavera P6 provides you with an interactive 3-day classroom training experience that allows for hands-on application using Oracle® Primavera P6. Oracle Primavera P6 is a project management program designed to handle large-scale, highly sophisticated and multifaceted projects. It can be used to organize projects up to 100,000 activities, and it provides unlimited resources and an unlimited number of target plans.

Through use of Primavera P6, you will be led through the entire project life cycle, from planning to execution, including adding activities, assigning resources, and creating a baseline. You will also gain a thorough background in the concepts of planning and scheduling. All workshops and instruction stress the three basic elements of project management: schedule, resource and costs.

Gain the knowledge and skills in project management to effectively use the Oracle® Primavera P6 software program.

Learn how to manage projects collaboratively as a team using the same software platform.

PROGRAM DATE

[Click here for upcoming dates and locations.](#)

Three full days of live classroom instruction. Continental breakfast and lunch provided each day.

FEE

\$1,950
